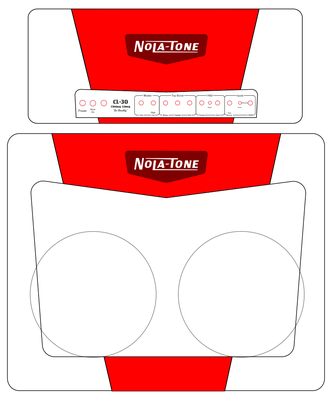
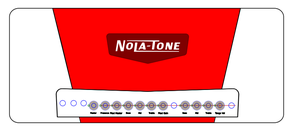
Head and 2x12 Extension Cabinet





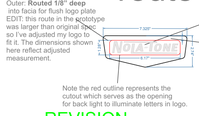
Head Box

Logo route

Spec:
Outer: **Routed 1/8" deep** into facia for flush logo plate
EDIT: this route in the prototype was larger than original spec, so I've adjusted my logo to fit it. The dimensions shown here reflect adjusted measurement.

Spec:
Inner: Routed **all the way through** 3/4" front facia for back light.

Spec:
Inner lip/ledge .4" wide at top

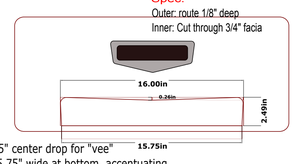


REVISION

NOTE: The dimensions for this logo cutout should be identical to those on the latest new combo design from last year: Combo-LC-1x12-C-5/8ths_ply-Standard-Medium

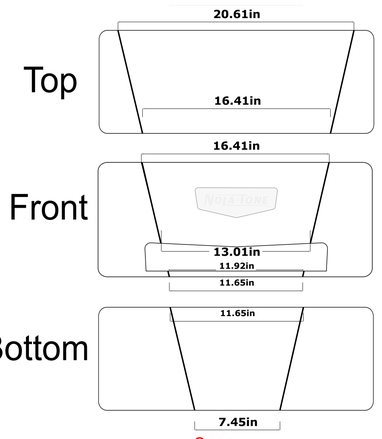
Front view

Spec:
Outer: route 1/8" deep
Inner: Cut through 3/4" facia



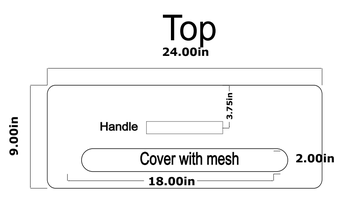
* Cutout is 2.49" wide with .25" center drop for "vee"
* Cutout is 16" wide at top, 15.75" wide at bottom, accentuating the "vee" cosmetic.
* 1/2" radius top corners
* 3/4" radius roundover for top and sides of opening

Piping Dimensions

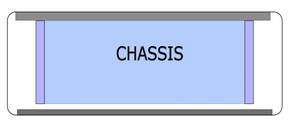


Spec:
Piping grooves cut to fit Mojotone 3/32" no-lip piping, for example part # 1131400

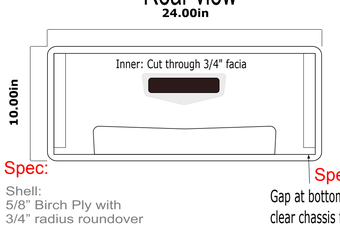
Top



Spec:
3/4" radius roundover on cutout



Rear view

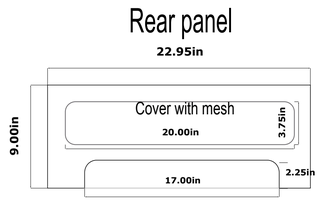


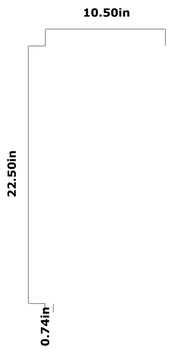
Spec:
Shell:
5/8" Birch Ply with
3/4" radius roundover

Spec:
Gap at bottom of stringers to clear chassis flange

Spec:
Rear Panel Stringers:
Hardwood, 1" wide

Rear panel





Spec:
Rear Panels: 1/2" Birch Ply
3/4" radius roundover on cutouts
